Naval Surface Warfare Center, Port Hueneme Division

4363 Missile Way, Port Hueneme CA
Located at Naval Base Ventura County, Port Hueneme, California

Naval Surface Warfare Center, Port Hueneme Division (NSWC PHD) is one of the ten surface and undersea warfare centers. Our mission is to provide test and evaluation, systems engineering, integrated logistics support, in-service engineering, business services, and integration of surface ship weapons, combat systems, and warfare systems.

Since its inception in 1963, NSWC PHD has been supporting the combat and weapon systems of the Fleet by providing highly skilled personnel and state-of-the-art facilities to lead the development and support of U.S. Navy surface ship warfare systems throughout their life cycles. Port Hueneme focuses its technical capabilities on Next Generation In-Service Engineering, which involves direct connectivity to the Fleet on a global basis and the immediate availability of round-the-clock access to products, services, and Fleet support capabilities. Next Generation In-Service Engineering will support predictive system failure, remote diagnostics, and corrective action via real-time, networked communications.

**LOCATION INFORMATION**

Naval Surface Warfare Center Port Hueneme Division is located at Naval Base Ventura County in the city of Port Hueneme, California. NSWC PHD is on the Southern California coastline midway between Santa Barbara and Los Angeles. The Division is a tenant organization at the naval base, with highly technical activities and distinctly different objectives than those of other tenant commands.

**CLIMATE**

Moderate year round. Light jacket appropriate for late afternoon/evening.

The Ventura County coastal area is comforted by a gentle marine influence that creates a year-round, pleasant, "Mediterranean-type" climate with mild and comfortable temperatures. During the summer months, the ambient temperatures are generally about ten degrees cooler than the Los Angeles area, while in winter months, the temperatures are warmer than inland California areas.

**CALIFORNIA DRIVING LAWS/RULES**

- Do not operate a cell phone without the use of a hands-free device.
- Do not drive a motor vehicle while using a wireless communications device to write, send, or read text-based communications.
- Turn on headlights if rain, fog, or low-visibility (1,000 feet or less) require the use of windshield wipers.
VISIT REQUESTS

**U.S. Personnel with DoD CAC card:** Proceed through gate with DoD CAC.

**U.S. Personnel with no DoD CAC card:** Indicate that you do not hold a CAC card when you register. You will be contacted by TAG Chair/Vice Chair to get information that will be used to submit a group access request.

**Foreign Nationals:** We are working to determine access requirements, please check TAG website for updates or contact TAG 74 Vice Chair mairanne.paulsen@navy.mil
